Subject: Fwd: Request for ATSDR assistance deployment

Hi Claire

Here is the request we got from EPA to provide ATSDR field support to the San Juan Basin HD for public health messaging and access to public health technical resources. Is this something that will be helpful to The SJB HD?

Thanks and Let me know if you have questions

Chris

Subject: Request for ATSDR assistance deployment

Hello Chris,

As our RRT rep, I am sending this to you but please forward it on to others as appropriate.

On behalf of RRT Co-Chair David Ostrander, I am requesting ATSDR deploy resources to assist the OSC working the Gold King Mine Release in Durango, CO. Specifically we seek technical assistance via one ATSDR environmental health initial person to help UC with human health threat assessment and analysis, and exposure prevention and mitigation. This person would deploy for approximately one week but, if assistance is needed longer, we would expect additional personnel to rotate to the site, preferably with opportunity to overlap/transition to the incident.

Please contact me with any questions and thank you in advance for your assistance!!

Gina Cristiano
